

Scripps Clinic Medical Group in San Diego is seeking a Neurologist with expertise in EMG and Neuromuscular disease (board certified with American Board of Psychiatry and Neurology and American Board of Electrodiagnostic Medicine) to join a large collegial multi-specialty group, which in the Neurology division, consists of 14 Neurologists with varying subspecialties. We are looking for candidates who can deliver excellent, compassionate clinical care to our patients. Opportunities are available to participate in graduate medical teaching and collaborative research.

San Diego, California is in a large urban setting with diverse cultural backgrounds and access to many family-friendly forms of entertainment, including sports, music, theater, museums, and diverse restaurants. San Diego has one of the best climates anywhere on the planet and is home to sunny and beautiful beaches.

The candidate will see primarily Neuromuscular and general Neurology patients in our offices in San Diego, California. Work load would consist of mainly outpatient Neurology care with outpatient clinic call, as we have full-time Neuro-hospitalists and Vascular/stroke Neurologists covering the inpatient Neurology service.

Having single fiber emg skills is favorable.

A competitive salary package is offered and benefits include medical/dental/vision insurance, medical malpractice coverage, contributions to retirement savings, and a stipend for continued education. Scripps hospitals are consistently ranked among America's Best Hospitals according to US News. Interested candidates please email Dr. Nelson Hywnn at hwyynn.nelson@scrippshealth.org
